Education

• Chaitanya Deemed to be University

Bachelor of Computer Applications - Information Technology; GPA: 9.0

Courses: Operating Systems, Data Structures, Analysis Of Algorithms, Artificial Intelligence, Machine Learning, Networking, Databases

Hyderabad, India

May 2023 - June 2026

Skills Summary

-
- **Languages:** JavaScript, JAVA
 - **Frontend:** HTML5, CSS3
 - **Frameworks:** React.js, Redux Toolkit, Node.js, Express.js, React Router, Mongoose, Tailwind CSS, SCSS
 - **Tools:** Git, GitHub, Docker (Basic), Postman
 - **Platforms:** Web, Linux, Windows, AWS (Basic)
 - **Soft Skills:** Problem Solving, Communication, Team Collaboration, Time Management
-

Projects

-
- **MacOS Desktop Simulator (React):** An interactive macOS-inspired desktop web application replicating core desktop behaviors such as window management and application interaction using modern React architecture. **Tech:** React, JavaScript, CSS, Modern Frontend Architecture | **Live:**<https://macos-desktop-react.vercel.app/> | **GitHub:** <https://github.com/ritam-g/macOS-desktop-react>
 - **3D Motion-Driven Web Interface:** A motion-focused 3D web experience featuring smooth animations and interactive visuals, built with React, Three.js, and GSAP for immersive user interaction. **Tech:** React, Three.js, GSAP, JavaScript, WebGL | **Live:** <https://dogstudio-3d-clone.vercel.app/> | **GitHub:**<https://github.com/ritam-g/dogstudio-3d-clone>
 - **Classic Snake Game (Web) • Classic Snake Game (Web):** A browser-based implementation of the classic Snake game emphasizing grid-based movement, collision detection, and responsive gameplay with a clean UI. **Tech:** JavaScript, CSS Grid, HTML. | **Live:** <https://snake-game-8nzq.vercel.app/> | **GitHub:**<https://github.com/ritam-g/snake-game>
 - **SmartCore AI – Voice Assistant System:** A Python-based **voice-controlled assistant** capable of executing system commands, fetching information, and automating basic tasks using speech recognition and text-to-speech processing. Designed with a modular architecture to handle voice input, command parsing, and system interactions efficiently. **Tech:** Python, SpeechRecognition, pyttsx3, Wikipedia API, OS, WebBrowser. **GitHub:** <https://github.com/ritam-g/SmartCore-AI>
